Introduction

The EW-S1810GU-AP series is a 10/100M with gigabit uplink unmanaged PoE switch. It has 8*10/100M PoE ports and 2*10/100/1000M uplink RJ45 ports. Port 1-6 can support IEEE 802.3af/at standard and port 7-8 support IEE802.3af/at/bt POE power supply, and single port PoE power reaches 60W. The maximum PoE output power is 120W. As a PoE power supply device, it can automatically detect and recognize the power receiving equipment that meets the standard and supply power through the network cable. It can supply power to POE terminal equipment such as wireless AP, webcam, VoIP, visual intelligent building intercom through network cable, and meet the network environment that needs high-density PoE power supply. It is suitable for hotel, campus, factory dormitory and small and medium-sized enterprises.
